Synonyms:	Cedro oil, red cedarwood
Country of Origin:	USA
CAS Number:	85085-41-2
EC Number:	285-370-3
Status:	100% Pure & Natural

General Description

Eastern Red cedar is a large, slow-growing evergreen that reaches 30 meters in height. It is native to the eastern side of the Rocky Mountains in North America. A member of the *Cupressaceae* family, it shares botanical attributes with juniper (*Juniperus* genus) and its cousin, the cypress, for the evergreen foliage is composed of overlapping scales and needles. The fruits are globular, purple-brown berries reminiscent of juniper berries. The red-brown heartwood earned the tree the name "Red cedar."

Extraction

"Cedar Wood Oil Virginian". *Juniperus Virginiana* Wood Oil is an essential oil obtained using steam distillation from the wood and twigs of the Red Cedar, *Juniperus virginiana* L., *Cupressaceae*. It contains chiefly cedrene and cedral (cedar camphor).

Common Uses/Applications

- Aromatherapy applications.
- Component used in cosmetic products.
