

REGULATORY AND SAFETY INFORMATION

We herewith certify that our colorants fulfill the following regulations:

EU Directives 67/548/EEC and 1999/45/EEC:

The ingredients of our colorants and the colorants themselves are classified as '**non-hazardous**' chemicals or '**non-hazardous**' chemical preparations, respectively.

REACH, European provision No. 1907/2006

The chemical substances used for the manufacture our color preparations will be pre-registered by the producer or by its European up-stream suppliers before the pre-registration phase deadline of Dec.1st 2008. At current status we have no negative indication in relation to the registration of the respective chemicals.

Generally our colorants comply with the limit values for heavy metals and aromatic amines according to EU AP (89) I and the IX. recommendation from German BfR. Our products also comply with the limit values for migration of heavy metals according to European norm for toys (EN 71-3).

The ingredients of our colorants are listed in the inventories of **Europe** (EINECS, ELINCS), **USA** (TSCA) and **Canada** (DSL). Our products do not contain any ingredients listed in Californian Proposition 65, EPCRA Section 313 and OSHA's hazard communication 29 CFR 1910.1200.
