### Part Number: 41062 - GOG142 - GOC048 - PK047

We certify that the above material complies with the Standards of the International Fragrance Association (IFRA), amendment 48, published in June 2015, provided it is used in the following classes at a maximum concentration level of:

| Combined IFRA Category | Maximum level of use (% w/w) |
|------------------------|------------------------------|
| Class 1.A              | 5.62 (See Note 1)            |
| Class 1.B              | 5.62                         |
| Class 2                | 7.87                         |
| Class 3.A              | 30.37                        |
| Class 3.B              | 30.37                        |
| Class 3.C              | 30.37                        |
| Class 3.D              | 30.37                        |
| Class 4.A              | 89.99                        |
| Class 4.B              | 89.99                        |
| Class 4.C              | 89.99                        |
| Class 4.D              | 89.99                        |
| Class 5                | 47.24                        |
| Class 6                | See Note 1                   |
| Class 7.A              | 14.62                        |
| Class 7.B              | 14.62                        |
| Class 8.A              | 22.49                        |
| Class 8.B              | 22.49                        |
| Class 9.A              | 56.24                        |
| Class 9.B              | 56.24                        |
| Class 9.C              | 56.24                        |
| Class 10.A             | 28.12                        |
| Class 10.B             | 28.12                        |
| Class 11.A             | 100.00 (See Note 2)          |
| Class 11.B             | 100.00 (See Note 2)          |

For other kinds of applications a new evaluation may be needed.

The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee.

Evaluation of individual Fragrance ingredients is made according to the safety standards contained in the relevant section of the IFRA Code of Practice.

It is the ultimate responsibility of our customer to ensure the safety of the final product (containing this fragrance) by further testing if need be.

Note 1: It is recommended that any material used to impart perfume or flavour in products intended for human ingestion should consist of ingredients that are in compliance with appropriate regulations for foods and food flavourings in the countries of planned distribution.

Note 2: Trials must be performed to satisfy suitability for specified application
