

## SAFETY DATA SHEET

Zuiver kleur pigment - geel (warm) - CI 19140 / Pure color pigment - yellow (warm) - CI 19140 - KZP09

(FDC Yellow 5 Al Lake 22-27%)

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

- Product trade name: **Zuiver kleur pigment - geel (warm) - CI 19140 / Pure color pigment - yellow (warm) - CI 19140**
- Company product code: SQ09715 - KZP09
- REACH registration number: A registration number is not available for substance as the the annual tonnage does not require a registration or it is scheduled for a later date.
- Substance name: Al lake of Trisodium 5-hydroxy-1-(4-sulphophenyl)-4-(4-sulphophenylazo)pyrazole-3-carboxylate
- Substance identification number:  
CAS : 1934-21-0  
EINECS : 217-699-5

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against Suitable uses:

Coloring agent and Pigment

#### 1.3 Details of the supplier of the safety data sheet

**Company :** SoapQueen vof,  
**Address :** Veilingdreef 20, 4614RX Bergen op Zoom, Netherlands  
**Telephone :** +31 (0)164 254900 - Office Hours: 09:00 - 17:00 (weekdays only)

#### 1.4. Emergency telephone number

**Netherlands :** National Poisoning Information Center - Bilthoven  
TEL: +31(0)88 755 8000 (Only for the purpose of informing medical personnel in cases of acute intoxications)

### Section 02 : Hazards Identification

#### 2.1. Classification of the substance or mixture:

- Product classification according to Regulation (EC) 1272/2008 (CLP) as amended: Not classified as hazardous under any GHS hazard class.
- Product classification according to Directive 67/548/EEC or 1999/45/EC as amended: Not a hazardous substance or preparation according to EC Directives 67/548/EEC or 1999/45/EC.

#### 2.2. Label elements:

Product labeling according to Regulation (EC) 1272/2008 (CLP) as amended:

## SAFETY DATA SHEET

- Hazard pictogram(s): Not Applicable
- Signal word: Not Applicable
- Hazard statements: Not Applicable
- Precautionary statements: Not Applicable

Supplemental information: No Additional Information

### 2.3 Other hazards:

- PBT/vPvB criteria: Not Available

Other hazards: Dermal contact may discolor the skin due to dye characteristics. May form combustible dust concentrations in air.

See Section 11 for toxicological information.

### Section 03 : Composition / Information on Ingredients

3.1. Substance: No Hazardous Components found under applicable regulations. Amounts specified are typical and do not represent a specification.

Product / Ingredient Name	Identifiers	%	Classification	
			67/548/EEC	Regulation (EC) no. 1272/2008 (CLP)
Al lake of Trisodium 5-hydroxy-1-(4-sulphophenyl)-4-(4-sulphophenylazo)pyrazole-3-carboxylate	CAS : 1934-21-0 EINECS : 217-699-5	22 – 27%	Not classified	Not available

### 3.2 Mixtures :

### Section : 04 First – aid measures

#### 4.1. Description of first aid measures:

- General: If irritation or other symptoms occur or persist from any route of exposure, remove the affected individual from the area: see a physician/get medical attention.
- Eye contact: Any material that contacts the eye should be washed out immediately with water. Get medical attention if symptoms occur.
- Skin contact: Wash the affected area thoroughly with plenty of soap and water. Get medical attention if symptoms occur.
- Inhalation: If affected, remove to fresh air. Get medical attention if symptoms occur.  
Ingestion: Get medical attention if symptoms occur.
- Protection of first aid responders: Wear proper personal protective clothing and equipment.

## SAFETY DATA SHEET

4.2. Most important symptoms and effects, both acute and delayed: Irritation, Skin discoloration due to dye. Pre-existing skin problems may be aggravated by prolonged or repeated contact. See section 11 for additional information.

4.3. Indication of any immediate medical attention and special treatment needed: Treat symptomatically.

### Section 05 : Fire – Fighting measures

5.1. Extinguishing media:

- Suitable: Carbon dioxide, foam, dry chemical, water.
- Unsuitable: Avoid hose streams or any method which will create dust clouds.

5.2. Special hazards arising from substance or mixture:

Unusual fire/explosion hazards:

Concentrated dust/air combinations may produce explosive conditions. As with all organic dusts, fine particles suspended in air in critical proportions and in the presence of an ignition source may ignite and/or explode. Dust may be sensitive to ignition by electrostatic discharge, electrical arcs, sparks, welding torches, cigarettes, open flame, or other significant heat sources. As a precaution, implement standard safety measures for handling finely divided organic powders. See Section 7 for suggested measures. Hazardous combustion products: Irritating or toxic substances may be emitted upon burning, combustion or decomposition. See section 10 (10.6 Hazardous decomposition products) for additional information.

5.3. Advice for fire-fighters:

Avoid hose streams or any method which will create dust clouds. Wear self-contained breathing apparatus (SCBA) and complete personal protective equipment when entering confined areas where potential for exposure to vapors or products of combustion exists. See section 9 for additional information.

### Section 06 : Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures:

See Section 8 for recommendations on the use of personal protective equipment. Avoid raising powdered material due to explosion hazard. Use spark-proof and explosion-proof equipment. If inhalation of dust cannot be avoided, wear an approved particulate respirator.

6.2. Environmental precautions:

Do not flush product into public sewer, water systems or surface waters.

6.3. Methods and material for containment and cleaning up:

Contain spill. Wear proper personal protective clothing and equipment. Using care to avoid dust generation, vacuum or sweep into a closed container for reuse or disposal. Use approved industrial vacuum cleaner for removal. Avoid causing dust. Place into labeled, closed container;

## SAFETY DATA SHEET

store in safe location to await disposal. Change contaminated clothing and launder before reuse.

### 6.4. References to other sections:

See Section 8 for recommendations on the use of personal protection and Section 13 for waste disposal.

## Section 07 : Handling and Storage

### 7.1. Precautions for safe handling:

As with any chemical product, use good laboratory/workplace procedures. Wash thoroughly after handling this product. Always wash up before eating, smoking or using the facilities. Use under well-ventilated conditions. Avoid eye contact. Avoid repeated or prolonged skin contact. Avoid drinking, tasting, swallowing or ingesting this product. Avoid routine inhalation of dust of any kind. Exercise care when emptying containers, sweeping, mixing or doing other tasks which can create dust. Wash contaminated clothing before reuse. Provide eyewash fountains and safety showers in the work area. As a precaution to control dust explosion potential, implement the following safety measures: Eliminate ignition sources (e.g., sparks, static buildup, excessive

heat, etc.). In general, dust of organic materials is a static charge generator which may be ignited by electrostatic discharge, electrical arcs, sparks, welding torches, cigarettes, open flame, or other significant heat sources. Use spark-proof tools and equipment. Bond, ground and properly vent conveyors, dust control devices and other transfer equipment. Prohibit flow of polymer, powder or dust through non-conductive ducts, vacuum hoses or pipes, etc.; only use grounded, electrically conductive transfer lines when pneumatically conveying product. Good housekeeping and controlling of dusts are necessary for safe handling of product. Prevent accumulation of dust (e.g., well-ventilated conditions, promptly vacuuming spills, cleaning overhead horizontal surfaces, etc.).

### 7.2. Conditions for safe storage, including any compatibilities:

Store cool and dry, under well-ventilated conditions. Store this material away from incompatible substances (see section 10). Do not store in open, unlabeled or mislabeled containers. Keep container closed when not in use.

### 7.3. Specific end use(s): No Additional Information.

## Section 08 : Exposure controls / Personal Protection

### 8.1. Control parameters:

- Occupational exposure limits (OEL): No applicable exposure limits.
- Derived No Effect Levels (DNELs) - Workers: Not Available
  
- Predicted No Effect Concentration (PNECs): Not Available

## SAFETY DATA SHEET

### 8.2. Exposure controls:

Appropriate engineering controls: Always provide effective general and, when necessary, local exhaust ventilation to draw dust away from workers to prevent routine inhalation. Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the SDS. Eliminate ignition sources (e.g., sparks, static buildup, excessive heat, etc.).

Prohibit flow of powder or dust through non-conductive ducts, vacuum hoses, or pipes, etc. Bond, ground, and properly vent conveyors, dust control devices and other transfer equipment.

### Individual protection measures, such as personal protective equipment:

- Eye/face protection: Wear eye protection.
- Hand protection: Avoid skin contact when mixing or handling the material by wearing impervious and chemical resistant gloves. In case of prolonged immersion or frequently repeated contact, gloves with breakthrough times greater than 240 minutes (protection class 5 or greater) are recommended. For brief contact or splash applications, gloves with breakthrough times of 10 minutes or greater are recommended (protection class 1 or greater). The protective gloves to be used must comply with the specifications of the EC directive 89/686/EEC and the resultant standard EN 374. Suitability and durability of a glove is dependent on usage (e.g. frequency and duration of contact, other chemicals which may be handled, chemical resistance of glove material and dexterity). Always seek advice of the glove supplier as to the most suitable glove material.
- Skin and body protection: Use good laboratory/workplace procedures including personal protective clothing: labcoat, safety glasses and protective gloves.
- Respiratory protection: Respiratory protection is not needed with proper ventilation. In case of insufficient ventilation, wear suitable respiratory equipment. If inhalation of dust cannot be avoided, wear an approved particulate respirator.
- Further information: Eyewash fountains and safety showers are recommended in the work area. Environmental exposure controls: See Sections 6 and 12.

## Section 09 : Physical and Chemical properties

### 9.1. Information on basic physical and chemical properties:

- Form: Powder
- pH: Not Available
- Appearance: Yellow
- Relative density: Not Available
- Odour: None
- Partition coefficient (noctanol/water): Not Available
- Odour threshold: Not Available
- Solubility in water: Insoluble
- VOC: Not applicable
- Evaporation rate: Not Available

## SAFETY DATA SHEET

- Boiling point °C: Not Available
- Vapour pressure: Not Available
- Boiling point °F: Not Available
- Vapour density: Not Available
- Flash point: Not Applicable
- Viscosity: Not Available
- Autoignition temperature: Not Available
- Melting point/Freezing point: Not Available
- Flammability (solid, gas): Not flammable (may form combustible dust-air mixtures)
- Oxidising properties: Not oxidizing
- Flammability or explosive limits: LFL/LEL Not Available
- UFL/UEL Not Applicable
- Explosive properties: Not explosive
- Decomposition temperature: Not Available

### 9.2. Other information:

Not available

### Section 10 : Stability and reactivity

- 10.1. Reactivity: None known.
- 10.2. Chemical stability: This product is stable.
- 10.3. Possibility of hazardous reactions: Hazardous polymerization will not occur.
- 10.4. Conditions to avoid: Avoid dust formation.
- 10.5. Incompatible materials: Avoid contact with strong oxidizing agents.
- 10.6. Hazardous decomposition products: Carbon dioxide, carbon monoxide, oxides of nitrogen, and oxides of sulfur.

### Section 11 : Toxicological Information

#### 11.1. Information on toxicological effects:

#### Information on likely routes of exposure:

- General: Caution must be exercised through the prudent use of protective equipment and handling procedures to minimize exposure.
- Eyes: Solid particles on the eye (powder/dust) may cause pain and be accompanied by irritation.
- Skin: Repeated or prolonged skin contact may cause irritation.
- Inhalation: Dust inhalation may cause respiratory irritation.
- Ingestion: Ingestion may cause irritation.
- Acute toxicity information: Not classified (based on available data, the classification criteria are not met).

## SAFETY DATA SHEET

- Skin corrosion/irritation: Not classified (based on available data, the classification criteria are not met). Serious eye damage/irritation: Not classified (based on available data, the classification criteria are not met).
- Respiratory or skin sensitization: Not classified (based on available data, the classification criteria are not met).
- Carcinogenicity: Not classified.
- Germ cell mutagenicity: Not classified.
  
- Reproductive toxicity: Not classified.
- Specific target organ toxicity (STOT) - single exposure: Not classified.
- Specific target organ toxicity (STOT) - repeated exposure: Not classified.
  
- Aspiration hazard: Not classified (technical impossibility to obtain the data).
  
- Other toxicity information: No additional information available.
- Absorption : Not available.
- Distribution : Not available.
- Metabolism : Not available.
- Elimination : Not available.

### Section 12 : Ecological Information

- 12.1. Toxicity: No ecological testing has been conducted on this product.
- 12.2. Persistence and degradability: No specific information available.
- 12.3. Bioaccumulative potential: No specific information available.
- 12.4. Mobility in soil: No specific information available.
- 12.5. Results of PBT and vPvB assessment: Not Available
- 12.6. Other adverse effects: No additional information available.

### Section 13 : Disposal considerations

- 13.1. Waste treatment methods:  
Dispose of unused contents (incineration or landfill) in accordance with national and local regulations. Dispose of container in accordance with national and local regulations. Ensure the use of properly authorized waste management companies, where appropriate. See Section 8 for recommendations on the use of personal protective equipment.

### Section 14 : Transport Information

The information below is provided to assist in documentation. It may supplement the information on the package. The package in your possession may carry a different version of the label depending on the date of manufacture. Depending on inner packaging quantities and packaging instructions, it may be subject to specific regulatory exceptions.

- 14.1. UN number: N/A

## SAFETY DATA SHEET

14.2. UN proper shipping name: Not regulated - See Bill of Lading for Details

14.3. Transport hazard class(es): U.S. DOT hazard class: N/A Canada TDG hazard class: N/A Europe ADR/RID hazard class: N/A IMDG Code (ocean) hazard class: N/A ICAO/IATA (air) hazard class: N/A A "N/A" listing for the hazard class indicates the product is not regulated for transport by that regulation.

14.4. Packing group: N/A

14.5. Environmental hazards: Marine pollutant: Not Applicable Hazardous substance (USA): Not Applicable

14.6. Special precautions for user: Not Applicable

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code: Not Applicable

### Section 15 : Regulatory Information

15.1. Safety, health and environment regulations/legislation specific for the substance or mixture: Europe REACH (EC) 1907/2006: Applicable components are pre-registered, exempt or otherwise compliant.

- EU Authorizations and/or restrictions on use: Not Applicable
- Other EU information: No Additional Information
- National regulations: No Additional Information

#### Chemical inventories:

##### Regulation

- European Inventory of Existing Chemical Substances (EINECS): Y
- European List of Notified Chemical Substances (ELINCS): N
- U.S. Toxic Substances Control Act (TSCA): Y

A "Y" listing indicates all intentionally added components are either listed or are otherwise compliant with the regulation. A "N" listing indicates that for one or more components: 1) there is no listing on the public inventory; 2) no information is available; or 3) the component has not been reviewed.

15.2. Chemical safety assessment: Not Applicable

### Section 16 : Other Information

The data given here is based on current knowledge and experience. The purpose of this Safety Data Sheet and its Annex [if required according to Regulation (EC) 1907/2006 (REACH)] is to describe the products in terms of their safety requirements. The given details do not imply any guarantee concerning the composition, properties or performance.
